

Title: Push and Pull Game

Age Group: Infant

Submitted by: Jenny (Bendale)

Type of Activity: Physical Fine Motor

Materials:

- Toy Car
- Colour tape/ Paint tape

How to Do it:

- Make a straight line on the floor using the tape
- Let child(ren) push and pull the car following the straight line

Root Skill / Extension:

Physical - 5.2 Fine Motor

This activity develops children's hand-eye coordination and helps them practice their fine motor skills by pushing and pulling the car.

Open- ended question: "Wow! You pushed the car! Where did it go?"

Extend the learning: Attach a string to any toy with wheels. Drag the toy by pulling the string along with the child(ren). This can encourage the development of balancing skills which are ideal for children who are learning to walk.
