MEMORANDUM

TO: Parents/Families at the Metamorphosis Child Care Centre
FROM: Spyros Volonakis, Executive Director
CC: Sally Pacheco, Centre Supervisor
DATE: June 7, 2021
RE: Update Regarding Construction at the Donlands Subway Station

Dear Parents/Families,

I hope my letter finds you and your family well.

I would like to provide an update to the construction that is currently taking place at the Donlands Subway Station.

1. Schedule for Construction

Beginning today, Monday June 7th, the TTC will begin excavation work on the north-west corner of Strathmore Boulevard and Donland's Avenue.

We have attached a notice from the TTC regarding this stage of the construction to this correspondence for your review.

The TTC has confirmed that access to the Child Care Centre will be maintained at all times throughout this construction, and that noisy work will begin no earlier than 3:00 pm.

2. Installation of Acoustic Panels

In addition to the HEPA Air Purifiers, Network Child Care Services (Network) has also arranged for the installation of acoustic panels within the Centre, which took place last week.

Eco-Felt 25 mm thick Acoustic Panels were chosen to add acoustic absorption to the space and reduce the overall sound levels and reverberation times. Nearly 1,500 sq. ft. of acoustic panels were installed and the contractor noted that the room responded perfectly. Overall sound levels are down by 5-6 dBA (perceptively half as loud) and reverberation times have been reduced to an optimal level for a playroom. This will reduce overall sound levels from the anticipated construction at the Donland's Subway Station.

3. Communication with the TTC

Network will continue to maintain an open communication with parents and families throughout the construction process. Alongside this, Network will remain in close communication with the TTC for any updates in the work.

Network has created a portal on our website to share all updates, correspondences and reference materials for families to access regarding the Accessibility Project currently underway at the Donlands Subway Station.

This portal may be accessed at the following link: <https://networkchildcare.com/metamorphosis-accessibility-project/>.

Parents may connect with the accessibility project on the TTC's Webpage at the following link: <http://www.ttc.ca/donlandsconstruction>.

TTC community relations staff will be on hand throughout construction. Should there be any questions or concerns about the project, please contact their Senior Community Liaison Christina Joseph at Christina.joseph@ttc.ca.

If there are any parents who wish to view the acoustic panels and HEPA Air Purifiers within the Centre, please let me know and I will make arrangements to be onsite for an evening around 7:30pm, after the Centre has closed.

Thank you in advance for your understanding regarding this initiative. Please be advised that we will do our utmost best to ensure each child's safety during the construction.

Should you require additional information please contact me at spyros@networkchildcare.com or 416-530-0280.

Sincerely,

A handwritten signature in blue ink that reads "Spyros Volonakis". The signature is written in a cursive, flowing style.
