NETWORK
CHILD CARE SERVICES
FOUNDED IN 1991

Front cover: Childs Nest 121 and 123 / This page: St. Bartholomew

Purpose, Guiding Principles and Core Values

Purpose

Network Child Care Services (Network) partners to provide every advantage for families through the provision of exceptional early learning and development experiences for their children so they all have the same opportunity to thrive and be fulfilled as part of a community of diverse needs.

Guiding Principles

- All children deserve an equal advantage to thrive physically, emotionally, and intellectually because their early experiences and development are so important to them leading happy and productive lives.
- We respect that families have the most important understanding of and perspective on their children and their requirements.
- When families don't have the capacity to provide equal advantage, resources need to be available so that children still have access to them.
- Evidence-based research should determine what is best for childhood development.
- Our knowledge and training are always current, which require continuous commitment as there is constant innovation and research-based initiatives.
- We believe that to act with integrity, we must maintain the following principled values:
  - » Accountability
  - » Diversity
  - » Inclusiveness
  - » Equity

Core Values

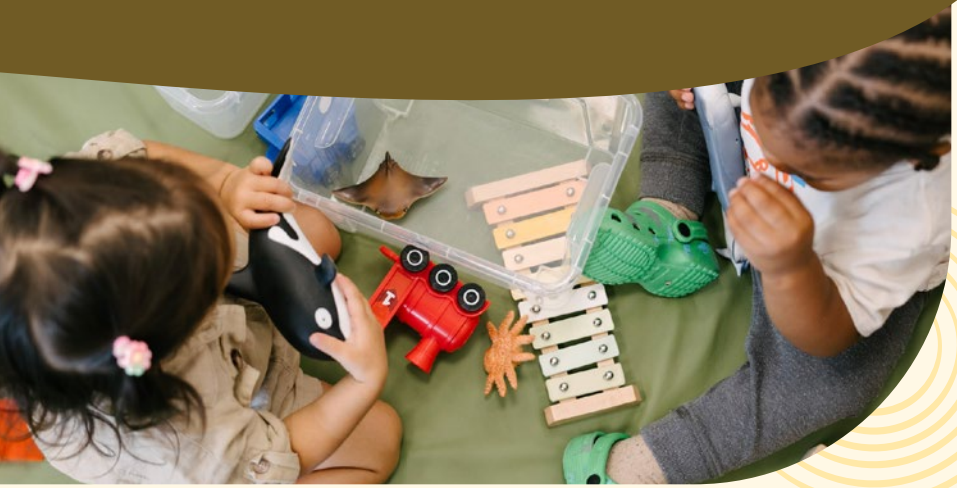

Network operates and delivers services and programs guided by a shared belief in core values including:

- Providing exceptional services to children, families, and communities to meet their requirements.
- Collaborating with families as integral partners in their child's development, learning and education choices.
- Dedication of its educators and affiliated home child care providers, and recognizing their professional contribution, continued professional development and commitment in fulfilling Network's purpose.
- Promoting mutual respect, diversity, inclusiveness, and equity in all its practices, services, and decision-making processes.
- Maintaining integrity and dignity in all its services, practices, and operations.
- Partnering with community organizations as providers of resources and support aids.

Leading with Purpose

- We have been in operation for over 30 years.
- Governments, school boards and other social welfare agencies view us as an integral partner in the delivery of child care services.
- We operate 22 licensed child care centres across Toronto, and we consult 170 home child care programs.
- Network is regulated by various government agencies. We observe all regulatory requirements, and hire people with the appropriate qualifications to execute our programs.
- We have the internal expertise to develop programs, as well as collaborating with external professionals so that we are always on the leading edge of early childhood development.
- We participate in research, advocacy and initiatives that advance early childhood development, as well as sit on various committees for municipal, provincial, federal, and international institutions.

Board President's and Executive Director's Report

Strategic progress, and program growth, became the overarching themes in 2025 for Network Child Care Services (Network). Harnessing the gained successes of the previous year, Network continued to revitalize and deliver early years and child care programs to young children and families across the City of Toronto through its Centre-based and Home Child Care Programs.

Network expanded its reach in 2025 with the opening of Liberty Village Child Care Centre in July. Located in a vibrant and rapidly growing neighbourhood, the new centre reflects Network's commitment to ensuring that families have access to high-quality, inclusive child care where they live and work.

Momentum continued across several development projects. Approvals were secured for future locations at 292 Dundas Street West and within St. Peter Catholic Elementary School, while construction advanced at the Broadview and Danforth Child Care Centre. Together, these initiatives positioned Network for continued expansion in 2026.

Network also strengthened its school-based programming with the launch of a new Before and After School program at St. Aidan in September. This expansion further enhanced Network's partnerships within the education sector and provided families with greater continuity of care throughout the day.

The Home Child Care program experienced significant growth in 2025, reinforcing its essential role within Network's service model. Network welcomed 52 home child care providers and three consultants from Twinkle Stars Private Home Daycare Services, expanding the program to more than 170 affiliated providers and increasing access to care across Toronto.

Community-building events, including the summer Provider Picnics, brought affiliated providers and their families together through shared experiences such as Indigenous dance workshops, arts and crafts, and outdoor activities. These events strengthened relationships and fostered a greater sense of connection across the Network community.

To support continued growth and enhance operational capacity, renovations to the Home Child Care office created four additional offices, providing more space for staff collaboration and future program expansion.

A defining milestone in 2025 was the development and launch of Network's first Five-Year Strategic Plan. Created in partnership with KPMG, the plan was informed by extensive engagement, including surveys and meetings with staff and affiliated home child care providers. Officially launched on April 9, 2025, the plan established five strategic priorities: Structure, Workforce, Partnerships, Technology, and Growth. The Strategic Plan provides a clear and actionable framework for the years ahead. It reflects a shared commitment to strengthening internal systems, supporting the workforce, enhancing collaboration, leveraging technology, and guiding sustainable growth.

Underpinning this work is Network's ongoing commitment to diversity, equity, and inclusion. The organization continues to foster welcoming, respectful, and culturally responsive environments where every child, family, educator, affiliated home child care provider, and employee feels valued, supported, and has equitable opportunities to thrive.

Network introduced the Nature Connections Project at select centres, including St. Aidan, Bendale, Just Kids, and Dane Avenue. During the spring and summer of 2025, Sensorium Gardens and Pollinator Patches featuring native plant species created meaningful opportunities for hands-on learning. These experiences supported children's physical, cognitive, and social-emotional development while deepening their connection to the natural world.

Music and movement programming continued to play an important role in children's daily experiences, encouraging expression, creativity, and active engagement. Across all centres, a strong focus on quality assurance helped ensure that programming remained consistent, safe, and aligned with sector best practices.

Network's commitment to excellence was reflected in its performance within the City of Toronto's Assessment for

Board President's and Executive Director's Report (continued)

Quality Improvement (AQI), with scores consistently exceeding city averages across all age groups. This strong foundation in outdoor and experiential learning also positions Network well to support the City's evolving AQI priorities, including the expanded use of outdoor spaces as meaningful extensions of the classroom.

Network continued to foster a strong sense of community through opportunities for professional learning, collaboration, and connection. Annual symposiums for staff and affiliated home child care providers were held in November at the Courtyard Marriott, featuring keynote speakers, professional development sessions, and opportunities to exchange knowledge and strengthen relationships.

Network continued to strengthen its governance framework through forward-looking leadership and planning. The Board of Directors approved key initiatives, including succession-planning framework, and expanded board composition.

The exploration of educational charity status further reflects Network's long-term vision to broaden its impact and advance its mission. Collectively, these efforts help ensure that Network remains resilient, responsive, and well positioned for future growth.

Throughout the year, Network continued to invest in technology and digital tools that enhanced educator experiences, family engagement, and organizational efficiency. Fiber-optic internet upgrades were completed across all child care centres, significantly improving connectivity and supporting more effective day-to-day operations. The introduction of Network email accounts for permanent staff also strengthened communication, consistency, and accessibility across the organization.

Additional iPads were introduced across centres to support the use of Storypark, strengthening program documentation, communication with families, and children's learning experiences. A shared music server was also installed, giving educators streamlined access to educational content and resources across classrooms and helping to create more dynamic and connected learning environments.

Network's commitment to innovation extended to the Home Child Care program, where affiliated providers received tablets and printers to support the transition toward more seamless and efficient paperless operations.

As Network looks ahead to 2026, the organization remains focused on responsible growth, innovation, and strengthening the quality of care and experiences provided to children, families, educators, and affiliated home child care providers.

A major milestone for the coming year will be the opening of two new child care centres, Children's Gallery and St. Peter, along with the launch of two additional Before and After School programs. These expansions will increase access to high-quality child care and create new opportunities for children to learn, explore, and thrive.

In 2026, Network will proudly celebrate its 35th anniversary, recognizing more than three decades of service, community impact, and commitment to children and families. This milestone will provide an opportunity to honour the organization's history while looking to the future with purpose and optimism.

Building on the momentum of Network's first Strategic Plan, the organization will continue advancing key strategic priorities focused on quality, growth, innovation, workforce support, partnerships, and organizational sustainability.

Network will continue working towards its organizational restructuring and website update to better reflect its mission and meet the evolving needs of the families and communities it serves. The refreshed brand identity, including an updated logo and a modern, user-friendly website, will enhance accessibility, strengthen communication, and create a more seamless and engaging online experience for families, staff, and community partners and stakeholders.

Network remains committed to modernizing its Home Child Care program by expanding digital tools and supports for affiliated home child care providers. Following the distribution of tablets, additional training and resources will help providers transition to more seamless, efficient, and increasingly paperless practices.

Network continues to express its gratitude and appreciation in the acknowledgement of the ongoing assistance and support of the Ministry of Education, the City of Toronto Children's Services, the Toronto Catholic District School Board, and now the Toronto District School Board as these important and vital child care relationships bring positive change to an ever-growing child care community.

Additionally, we would like to extend our most sincere thanks and appreciation to all families who have trusted Network to care for their children. Their confidence in Network's programs, the educators, the affiliated home child care providers, and staff, has been most impactful. At the same time, we would like to acknowledge Network's dedicated educators, the affiliated home child care providers, and staff who have staunchly committed themselves, each and every day, to delivering exceptional care to young children and families.

Finally, a very heartfelt thank you to Network's Board of Directors and Advisors for their thoughtful insight and committed leadership, as well as the administrative staff, the management team and the community partners who have contributed to Network's advancement over the past year! As the Organization reflected on 2025, we at Network remain steadfastly committed to delivering exceptional child care services of the highest possible caliber throughout all the programs.

Bob Monteiro
Board President

Spyros Volonakis
Executive Director

Letters from the Premier and Mayor

Ontario

I am pleased to congratulate the members of

NETWORK CHILD CARE SERVICES

on the occasion of its

35th Anniversary

Over the years, the commitment of the members of Network has helped to make your community and our province a better place.

Congratulations again, and I wish you many more years of success.

Legislative Building, Toronto
September 1, 2026

Doug Ford
Premier

CITY OF TORONTO

Mayor Olivia Chow
and Members of Toronto City Council
extend congratulations to

Network Child Care Servies

on your 35th anniversary.

It is a pleasure to recognize your organization's longstanding commitment to early years child care and to supporting accessible care for families in our community.

Best wishes for continued success.

Olivia Chow
Mayor of Toronto

September 2, 2026

2025 Highlights

Growing with Purpose

Network expanded its reach in 2025 with the opening of **Liberty Village Child Care Centre** in July. Located in a vibrant and rapidly growing neighbourhood, the new centre reflects our commitment to ensuring families have access to high-quality, inclusive care where they live and work.

Momentum continued across several development projects, with approvals secured for other future locations including 292 Dundas Street West and a new site within St. Peter Catholic Elementary School. Construction also progressed on the Broadview & Danforth Child Care Centre, positioning Network for continued expansion in 2026.

Within school-based programming, the launch of a new Before and After School program at St. Aidan in September further strengthened partnerships with the education sector and supported families with consistent, high-quality care throughout the day.

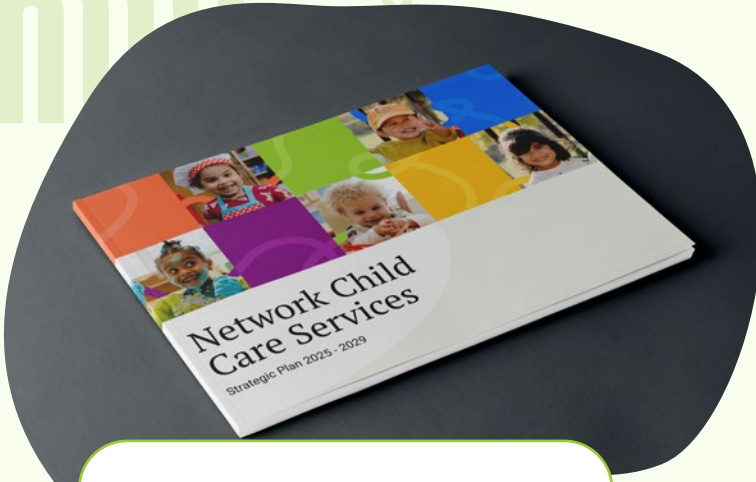

Strengthening Our Home Child Care Community

The Home Child Care program experienced significant growth in 2025, reinforcing its essential role within Network's service model. The organization successfully welcomed 52 home child care providers and three consultants from Twinkle Stars Private Home Daycare Services, expanding the program to more than 170 affiliated providers and increasing access to care across the city.

Community-building events, including the **summer Provider Picnics**, brought together affiliated providers and their families through shared experiences such as Indigenous dance workshops, arts and crafts, and outdoor activities, helping to strengthen relationships and foster a greater sense of connection across the network.

To support this continued growth and enhance operational capacity, renovations to the Home Child Care office added four new offices, creating additional space for staff collaboration and program expansion.

A Roadmap for the Future

A historic milestone in 2025 was the development and launch of Network's first **5-Year Strategic Plan**. Created in partnership with KPMG, the plan was informed through extensive engagement, including surveys and meetings with staff and affiliated home child care providers. Officially launched on April 9, 2025, it establishes five strategic priorities: Structure, Workforce, Partnerships, Technology, and Growth. Providing a clear and actionable framework for the years ahead.

The plan reflects a shared commitment to strengthening internal systems, supporting the workforce, enhancing collaboration, leveraging technology, and guiding sustainable expansion.

2025 Highlights (continued)

Enriching Children's Learning Experiences

Network introduced the **Nature Connections Project** across select centres, including St. Aidan, Bendale, Just Kids, and Dane Avenue. Through the creation of Sensorium gardens and Pollinator Patches in the Spring/Summer of 2025, which featured native plant species, children engaged in meaningful, hands-on learning that supported physical, cognitive, and social-emotional development while deepening their connection to the natural world.

Music and movement programming continued to play an important role in daily experiences, encouraging expression and engagement. Across all centres, a strong focus on quality assurance ensured that programming remained consistent, safe, and aligned with best practices.

Network's commitment to excellence was reflected in its performance within the City of Toronto's Assessment for Quality Improvement (AQI), where scores consistently exceeded city averages across all age groups. This strong foundation in outdoor and experiential learning also positions Network well to support the City's evolving AQI priorities, including the expanded integration of outdoor spaces as meaningful extensions of the classroom.

Connecting with Educators

Network continued to foster a strong sense of community through opportunities for learning and connection. **Annual Symposiums** for staff and affiliated home child care providers were held in November at the Courtyard Marriott, offering professional development, keynote speakers, and opportunities for collaboration.

Governance and Organizational Strength

In 2025, Network continued to strengthen its governance framework through forward-looking leadership and planning. The **Board of Directors approved key initiatives including enhanced emergency preparedness planning, succession planning frameworks, and expanded board education**. The exploration of educational charity status also reflects a long-term vision to broaden the organization's impact and mission.

These efforts ensure that Network remains resilient, responsive, and well-positioned for future growth.

Investing in Innovation and Tools for Success

Throughout 2025, Network continued to invest in technology and digital tools that enhanced both educator experiences and family engagement. Fibre optic internet upgrades were completed across all child care centres, significantly improving connectivity and supporting more efficient day-to-day operations. The introduction of **Network email accounts** for permanent staff also increased consistency, communication, and accessibility across the organization.

Additional iPads were introduced across centres to support the use of Storypark, strengthening program documentation, communication with families, and learning experiences for children. Shared music servers were also installed to provide educators with streamlined access to educational content and resources across classrooms, helping to create more dynamic and connected learning environments.

Network's commitment to innovation extended to the Home Child Care program, where affiliated providers received tablets and printers to support a transition toward more seamless, paperless operations.

"One of the best Daycares in Toronto!"

—Parent at Lansing Early Years Learning & Child Care Centre

Update from our Pedagogy Specialist, Susan Menchinton

Network Garden Pilot

In 2025, Network started a pilot project to expand dedicated garden space in Network's child care centres by placing five-foot raised beds in three locations (St. Aidan, Just Kids, Bendale) and by revamping large raised bed platforms at Dane Avenue. Several planting schemes were used to explore growing conditions and stewardship of natural areas, including Sensoriums where plants were chosen for their appeal to the senses, Pollinator Patches with a variety of plants to attract and feed bees and other beneficial insects, and Food Forest layouts to maximize the variety of crops and edible plants that can be grown in small spaces. Over the course of the growing season Educators delivered programming that fostered a connection with nature, exploring ecology, math and science skills, encouraging healthy eating habits, stimulating the senses, while promoting the development of self regulation and stress relief. This successful pilot will be expanded in 2026 to more centre locations.

Vertical Communities Pedagogy

In conjunction with the City of Toronto's model for creating child care spaces by partnering with developers to build centres within high density residential locations, Network has had the opportunity to open our Liberty Village site in 2025, with Children's Gallery coming in 2026. The agency felt that there were additional needs to be met for children who live in urbanized settings and a review of appropriate strategies for connecting with children and families being served by these locations was begun. The Vertical Communities Advisory was started in late 2025 to examine best practices and make recommendations for ways in which program delivery can be modified. Four pillars for the revised pedagogy were established: fostering resilience and capacity building in urban settings; honouring the Land through nature stewardship and involving indigenous perspectives; pursuing health and well-being through our Active Life model; and partnering with communities directly to address local needs. As the work of this Advisory continues, Network will align with the precepts of Child Friendly TO and the Toronto Strong Neighbourhood Strategy to develop a vertical communities model that can be used in current and future sites that share this profile.

Expansion of Home Child Care: New Intake and Waitlist Procedures

Network's Home Child Care department underwent a large expansion in 2025 by bringing on new affiliated Providers and by absorbing ones from Twinkle Stars Agency. The revised department now has eleven caseloads and Quality Assurance Consultants, with supervision of 168 Providers and home child care premises. At the same time, the agency was feeling the strain of increased parental inquiries for care due to the expansion of lower Canada Wide Early Learning and Child Care (CWELCC) guaranteed rates. An Intake Coordinator was hired for the department in October 2025 and work was begun on modernising how Home Child Care intake information was received and processed to best link parent needs with Provider vacancies. By centralising this process through one intake process and leveraging online mapping and digital waitlist tools, Home Child Care has been able to bring the workload in line with needs and increase the speed at which prospective clients are handled and vacancies filled.

Human Resources

In 2025, Network's Human Resources (HR) Department expanded and continued to play a role in implementing Network's strategic plan by supporting employees, strengthening workplace culture, and aligning practices with organizational priorities. The year's initiatives focused on adaptability, connection, employee well-being, professional growth and development, inclusive leadership, compliance, and long term workforce sustainability.

As employee expectations continued to evolve, HR emphasized meaningful work, personal and professional growth, supportive leadership, recognition, constructive feedback, and autonomy. These priorities were intended to support recruitment, retention, employee engagement, and the overall health of the workplace culture.

Strengthening Workplace Culture and Employee Engagement

HR continued to champion a healthy workplace culture as a competitive advantage. Recognizing that when employees feel supported, productive in their roles, and valued for their contributions, they are more likely to take initiative, collaborate effectively, adapt to change, and contribute meaningfully to the goals of their team and the organization.

HR continued to support managers and supervisors in creating team environments built on trust, respect, accountability, and psychological safety. Key initiatives included strengthening communication between employees and leadership, gathering employee feedback, supporting recognition practices, encouraging a culture where employees feel safe to ask questions, share concerns, and participate in change. Through coaching, policy guidance, and practical support, HR acted as a bridge between employees and management. This included listening to employee concerns, identifying emerging workplace needs, and helping supervisors and managers respond consistently, professionally, and compassionately.

Advancing Employee Well-Being and Mental Health Supports

Mental health and employee well-being remained at the forefront of HR by continuing to support wellness programs, feasible and flexible work practices, and access to mental health resources, including Employee Assistance Program supports.

Network continued its partnership with the Public Services Health and Safety Association and WSIB's Health and Safety Excellence Program to enhance workplace health and safety practices. HR's efforts focused on building a culture of accountability and support through open communication, proactive manager guidance, and practical resources that help employees and leaders respond to stress related concerns.

Human Resources (continued)

Enhancing Recruitment, Retention, and Total Rewards Education

HR strengthened recruitment and retention efforts by promoting inclusive leadership practices and providing education and engagement opportunities related to compensation, the Employee extended health benefits plan, and the Registered Pension Plan through information sessions, workshops, and one on one support.

The development of recognition criteria and program, as a strategic plan priority, to acknowledge contributions and service milestones helped reinforce appreciation, celebrate employee commitment, and support a culture where contributions are visible and valued.

Maintaining Compliance and Policy Requirements

Throughout 2025, HR monitored changes in employment standards and regulatory compliance, health and safety requirements, immigration obligations, and other regulatory developments affecting workplace practices. This involved timely updates to policies, compensation practices, safety protocols, recruitment processes, and record keeping requirements.

HR priorities for 2026 will continue to align with Network's long term strategic goals. The focus will include elevating innovation, accountability, strengthening leadership capability, expanding wellness and mental health supports, inclusivity, and continuing policy and compliance monitoring. These supports and strategic initiatives will help Network continue to thrive, continue growth in an evolving environment, while supporting employees in doing meaningful and impactful work.

"Child's Nest provides an exceptional level of care, love, and attention. The staff are consistently warm, patient, and highly attentive, creating a nurturing environment where children feel safe, happy, and supported every day. Amanda and her team go above and beyond in everything they do."

—Parent at Child's Nest 121 Early Years Learning & Child Care Centre

"*Just Kids is a wonderful daycare! They have very kind staff who take great care of the kids. I found them very supportive and the staff provided much desired information about how my child was doing day to day when we first transitioned to daycare. They have a lot of space, both indoor and outdoor, for the kids to explore and play. I feel very fortunate that my child got a place at Just Kids!*"

—Parent at Just Kids Early Years Learning & Child Care Centre

2026 Initiatives

As Network looks ahead to 2026, the organization remains focused on growth, innovation, and strengthening the quality of care and experiences offered to children, families, educators, and providers across the community.

Opening of New Centres and B&A's

A major milestone for the coming year will be the opening of two new child care centres, Children's Gallery and St. Peter, along with the launch of three additional **Before and After School programs**. These expansions will help increase access to high-quality child care and create new opportunities for children to learn, explore, and thrive.

Celebrating our 35th Anniversary

In 2026, Network will also proudly celebrate its **35th anniversary**, recognizing more than three decades of service, community impact, and commitment to children and families. This milestone will provide an opportunity to reflect on the organization's history while looking ahead to the future with purpose and optimism.

Focus on Strategic Plan

Building on the momentum of Network's first Strategic Plan, the organization will continue advancing and achieving key strategic priorities focused on quality, growth, innovation, and organizational sustainability.

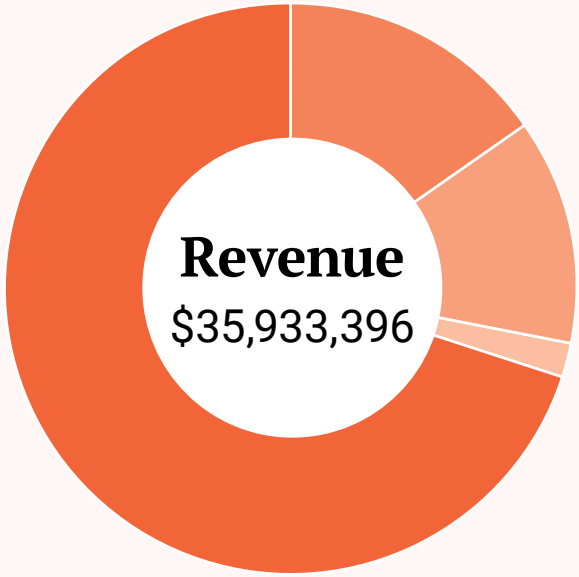

Website Rebrand Continued

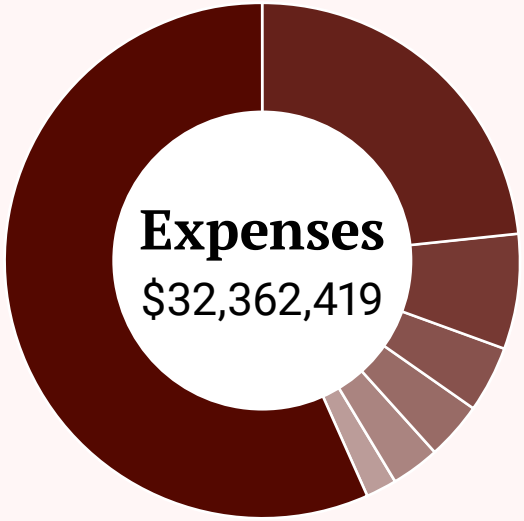

Network will also complete an exciting organizational rebrand and **website redesign** to better reflect its mission and meet the evolving needs of the families and communities it serves. The refreshed brand identity, including an updated logo and modern, user-friendly website, will enhance accessibility, strengthen communication, and create a more seamless and engaging online experience for families, staff, and community partners.

Home Child Care Digital Tools Training

Network will also continue modernizing its Home Child Care program by expanding digital tools and supports for affiliated providers. Following the **distribution of tablets**, additional training and resources will further support providers in transitioning to more seamless and efficient paperless practices.

Financial Highlights

Year ending December 31, 2025
